# MUSEUM FÜR NATURKUNDE BERLIN

DISTRICT Mitte I LOCATION HIRE on request

## THE LOCATION

The Museum für Naturkunde Berlin combines science, history and exclusivity. It is one of the city's best-known cultural venues and adds a special touch to any event. With its exhibition rooms in the historic building, the fascinating exhibits and the unique ambience, it offers the perfect setting for exclusive events: gala dinners, conferences, award ceremonies, receptions or product presentations.

**The Dinosaur Hall:** the highlight of the museum! Here your guests can dine and hold meetings under the largest mounted dinosaur skeleton in the world - the Brachiosaurus. The impressive backdrop makes every event an unforgettable experience.

**Evolution in Aktion and Kosmos and Sonnensystem:** perfect for smaller receptions or informal networking events in a historic setting. What makes it special: The biodiversity wall, which provides a small insight into the diversity of nature with around 3,000 prepared animal species.

All event rooms are barrier-free. The museum also offers good public transport connections.
