CLINKER Eventspace

DISTRICT Mitte I LOCATIONRENT on request

THE LOCATION

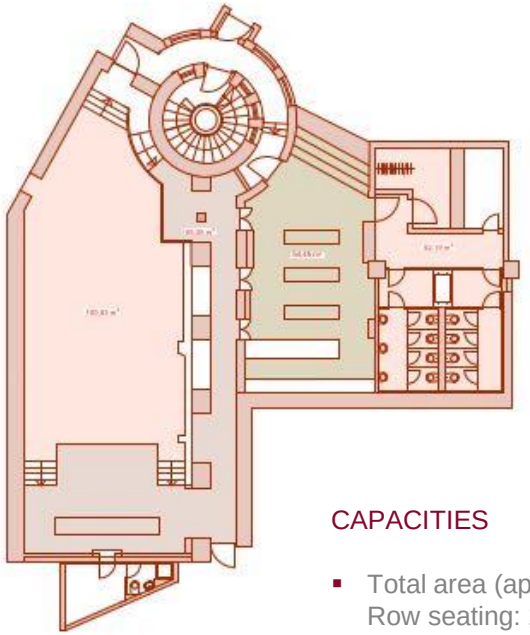

CLINKER combines the rugged charm of a 130-year-old ice factory with state-of-the-art event technology – an inspiring location in the heart of Berlin-Mitte, ideal for product launches, summits, workshops, screenings, productions, dinners and exclusive events.

A place steeped in history: over a century ago, artificial ice was produced in the historic ice factory – a technical legacy that still lends the space its special atmosphere today.

The spacious main area impresses with its existing tiles, high ceiling structure and immersive ceiling lighting elements – and presents itself as a flexible stage for a wide variety of formats. At the centre is a 5-metre-wide 4K LED wall, complemented by an immersive light ceiling, a club sound system and a professional multi-camera livestream setup.

Versatile usage zones with lounge and bar areas allow for creative room design – whether for relaxed networking, informal breakouts or representative presentations. Technology, equipment and the impressive brick architecture guarantee the necessary event flow.

Barrier-free access and direct access to the underground car park also make CLINKER logistically attractive – optimally located and excellently connected.
